

OWR-1228T-32B

Pistonic driver for earphones and earbuds

Driver targeted for Active Noise Control applications due to its large bandwidth and linearity. Both key parameters achieved by "pistonic" diaphragm design.

Characteristics

Size (ØxH) [mm]	12.0x3.5	
Sensitivity [dB SPL]	124.0±3dB	[179mV IEC-318 1KHz]
Impedance [Ω]	32	
Power [W]	3.0 / 5.0	
F0 [Hz]	200	Free field
Termination	Terminals	

Specifications are subject to change without prior notice. Upon request Ole Wolff can supply further specifications, simulation parameters etc.
