

## N-TYPE RF CONNECTORS PRODUCT EXPANSION

In a continuing effort to address market demand, TE Connectivity (TE) introduces a new assortment of N-Type coaxial connectors to the product portfolio. These connectors are part of the complete line of TE's RF products that have been widely used by the electronics industry.

N-Type connectors are ruggedized RF connectors with a threaded interface used for coaxial cable connections in various applications. They are designed to provide a reliable and consistent connection for transmitting high-frequency signals. Useful in harsh environments, these connectors can be used in a wide range of outdoor applications.

### APPLICATIONS

- Industrial equipment
- Aerospace and defense
- Communications systems
- Base stations
- Test and measurement equipment
- Broadcast equipment

### PRODUCT FACTS

- Rugged connector with dependable performance
- Robust construction for durability
- Weather-resistant design
- Threaded coupling mechanism for secure connections
- Cable mount and panel mount options available
- Nickel and white bronze plating available
- Capable of handling high power levels
- Excellent electrical performance at high frequencies
- Good shielding against electromagnetic interference
- Suitable for outdoor use due to weather resistance
- DC-11 GHz
- 50  $\Omega$  impedance
