# Amphenol ANYTEK

As one of the member company of Amphenol Group, Anytek concentrates on terminal blocks designing and production over 20 years, our research and development ability will always provide customers with new designs, reasonable prices and efficient services to meet their various demands.

Taipei Head Quarter - since 1997

Based on leading production technology, especially for automatic assembly, our high quality products bring best solution to different customers, and widely used in Electric Power, Industrial Control, Security and Protection, Lighting, Elevator, Info-communication and so on. All of our products meet UL, CSA or VDE regulations, and also EU Directive RoHS compliant.

Anytek set up sales network all over the world, Asia, Europe, America etc., worldwide customers also grant us quick knowledge on their new requirement and market development trend, which also is the important engine for Anytek to innovate insistently, and grow up with customers simultaneously.

Shenzhen Factory - since 1998

Shanghai Factory - since 2002

## Fixed Type Terminal Block

Wire Protector System

A1-A11

Rising Clamp System

B1-B27

Spring Clamp System

C1-C28

## Pluggable Type Terminal Block

Pin-Plugs Pluggable System

D1-D8

Header for Pluggable System

E1-E48

Screw Clamp Plugs for Pluggable System

F1-F23

Spring Clamp Plugs for Pluggable System

G1-G19

## Accessory

H1-H6

## Barrier Terminal Block

I1-I21

➔ Male contactors

\*(1):Two beam contact

\*(2):Six finger contact

⬇ Female contactors

1) This voltage is

- a) For function insulation: the operating voltage.
- b) For base insulation and additional insulation of a circuit fed directly by the low voltage selected from table 3a or 3b on the basis of the rated voltage of the items or the rated insulation voltage;
- c) For base and additional insulation of systems, items and internal circuits which are not fed directly by the mains: the highest true r.m.s. Value of the voltage that, within the bounds of the rated data, can occur in the system, the items or the internal circuit, when supplied with rated voltage and in the case of an unfavorable combination of operating conditions.

2) In the case of pollution degree 3, insulation material group IIIb is not recommended for use if voltages are greater than 630V.

### Definition of Material group

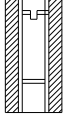

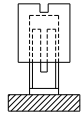

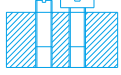

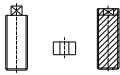

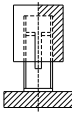

Material group	UL CTI	
Material group I	600 ≤ CTI	0
Material group II	400 ≤ CTI < 600	1
Material group III	175 ≤ CTI < 400	2 and 3
Material group IV	100 ≤ CTI < 175	4 and 5

## Technical information

**Table 7 Values of torque for screw type clamping units IEC 61984 7/table 7**

Column I applies to screws without heads if the screw, when tightened, does not protrude from the screw hole and to other screws which cannot be tightened by means of a screwdriver with a blade wider than the diameter of the screw.

Column II applies to nuts of mantle clamping units which are tightened by means of a screwdriver.

Column III applies to other screws which are tightened by means of a screwdriver.

Column IV applies to screws and nuts, other than nuts of mantle clamping units, which are tightened by means other than a screwdriver.

Column V applies to nuts of mantle clamping units which can be tightened by means other than that of a screwdriver.

Where a screw has a hexagonal head with a slot and the values in column III and IV are different, the test is made twice, first on a set of three specimens, applying to the hexagonal head the torque specified in column IV, and then to another set of three specimens, applying the torque specified in column III by means of a screwdriver. If the values in columns III and IV are the same, only the test with the screwdriver shall be made.

1) Values for non-compacted circular conductors.  
Copper conductors according to DIN VDE 0295 (IEC 60228)

Single wire		Fine stranded	
Wire diameter	=1.78mm	Wire diameter	=0.26mm
Number of wires	=1	Number of wires	= 50
Conductor dia.max.	=1.9mm	Conductor dia.max.	=2.3mm
Nominal cross section	=2.5mm <sup>2</sup>	Nominal cross section	=2.5mm <sup>2</sup>

Multi-wire		Ultra-fine stranded	
Wire diameter	=1.78mm	Wire diameter	=0.26mm
Number of wires	= 7	Number of wires	=45
Conductor dia.max.	= 2.2 mm	Conductor dia.max.	=2.3mm
Nominal cross section	=2.5mm <sup>2</sup>	Nominal cross section	=2.5mm <sup>2</sup>

## Static Heating Sequence Table

Conductor Size		A	Secureness								Pullout				
			Diameter of Bushing Hole		Height		Copper		Aluminum or copper-clad aluminum		Copper		Aluminum or Copper-Clad Aluminum		
			Inch	mm	Inch	mm	Pound	Kg	Pound	Kg	Pound	N	Pound	N

# Production Lines & Facilities 检测仪器设备

Salt Spray Tester  
盐雾实验机

X-RAY  
膜厚测试仪

Dielectric Vol-withstand Tester  
耐压测试仪

Micro-hardness Tester  
硬度测试仪

Temperature Rise Tester  
升温测试仪

Insertion and Withdrawal Tester  
插拔力测试仪

Digital Torque Meter  
数显扭力计

Solder Tester  
焊接测试仪

Aging Tester  
老化测试机

Constant Aging Tester  
恒温恒湿测试机

Insertion and Withdrawal Tester  
荷重测试机

Steam Aging Tester  
蒸汽老化测试机

3D-Projector  
3D-投影机

RoHS Tester  
环保测试仪

Glow-wire Test Machine  
灼热丝燃烧测试仪

Electronic Oven  
烤箱

Image Measuring Apparatus  
3D-投影机

Tumbling Barrel Test Machine  
跌落测试仪

Mechanical Strength Machine  
撞击测试仪

Vertical Projector  
立式投影机

Portable Color Measurement  
分光色谱仪

Insulation Resistance Tester  
绝缘阻抗测试仪

Contact Resistance Tester  
接触阻抗测试仪
