Not compatible with WEBCARDLX

Tripp Lite series SmartOnline 2000VA 1800W 120V Double-Conversion Sine Wave UPS - 7 Outlets, Extended Run, Network Card Option, LCD, USB, DB9, 2U Rack/Tower

MODEL NUMBER: SU2200RTXLCD2U

Provides battery backup, power protection and sine wave output for mission-critical IT installations, edge networks and other advanced network applications.

Features

2kVA 1.8kW 120V Battery Backup Protects Equipment against Damage, Downtime and Data Loss

This on-line double-conversion UPS system maintains perfect output by converting AC input to DC, then reconverting UPS output to fully regulated sine wave AC. Constant on-line operation completely isolates sensitive equipment from every power problem on the AC line. The SmartOnline® SU2200RTXLCD2U provides the highest level of power protection and battery backup for education, healthcare, military, government and other mission-critical IT applications where space is limited, but premium power reliability is essential.

Reliable, Expandable Battery Backup Keeps You Operational Through Power Outages

The field-replaceable, hot-swappable VRLA battery modules allow you to work through short power failures and give you enough time to safely save files and shut down your system in case of a prolonged blackout. Zero transfer time between on-line and battery modes maintains continuous operation of connected equipment without interruption or rebooting. Extra runtime is available by connecting up to four optional extended battery modules (BP72RT, sold separately).

Optional LX Platform Network Management Card Allows Remote Access 24/7

The WEBCARDLXE network interface (sold separately) enables full remote configuration and management, including load shedding, reboots of connected equipment and safe shutdowns. The IP-based Auto Probe feature ensures continuous network uptime by communicating with other network devices, detecting lost connectivity and automatically rebooting IT equipment. Optional EnviroSense2 modules (E2MT, E2MTDO and E2MTHDI, all sold separately) provide a variety of environmental monitoring and control options.

NEMA Outlets Protect Your Connected Components

One L5-20R and six 5-20R managed outlets provide connected equipment with pure sine wave AC output and allow you to manage power consumption down to the outlet group level. Power provided by these outlets is filtered to protect connected equipment against damaging surges and line noise. Four 5-20R outlets are split evenly into two switchable load banks that let you reboot select components or shed non-critical loads to extend runtime for critical loads. A cooling fan helps protect equipment from overheating.

Highlights

- Updated design for 2023
- Offers network-grade protection against power failures and voltage fluctuations
- Zero transfer time between on-line and battery modes for uninterrupted operation
- Keeps equipment running during outages to allow time for file saves and safe shutdown
- Optional WEBCARDLXE network interface allows 24/7 remote access from anywhere
- 2-line front-panel LCD with 10 selectable screens reports detailed UPS and site power info

Package Includes

- 2000VA 1800W 120V Double-Conversion UPS
- USB cable
- DB9 RS232 cable
- Rack-mounting hardware
- Tower support stands
- Safety instructions
- Quick start guide

Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform Better

This UPS system filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

Intuitive Front-Panel Interface for Convenient UPS Operation and Monitoring

The two-line front-panel LCD monitoring screen features 10 selectable screens that allow quick access to a wide range of detailed UPS and site power information. LEDs show UPS status: a green light means utility power is on, an orange light means the UPS is in battery or bypass mode and a red light indicates an active alarm or fault. The control panel rotates to accommodate both rack-mount and tower configurations.

Advanced Communications Ports Allow for Automatic Saves and Shutdowns

RS-232 and USB ports connect to a device for a variety of communication options (cables are included). A dry-contact relay port can be programmed through the LCD to provide reliable communications to automation and industrial components. The RPO/ROO port permits emergency shutdown or remote restart of all connected equipment. **Automatically Turns Back On After Power Is Restored**
Battery-independent restart ensures automatic UPS power-up without user interaction after lengthy power outages, even after a complete battery discharge.

Versatile Installation Options

Hardware is included for mounting the UPS system in 2U of space in an EIA-standard 19-inch 4-post rack. You can also adapt it for tower installation using the included support stands. The eight-foot power cord with NEMA 5-20P plug connects to any compatible AC outlet.

Specifications

OVERVIEW	
UPC Code	037332168955
UPS Type	On-Line
INPUT	
Input Phase	Single-Phase
Rated input current (Maximum Load)	16A
Nominal Input Voltage(s) Supported	100V AC; 110V AC; 120V AC
Nominal Input Voltage Description	120V factory default
UPS Input Connection Type	5-20P
UPS Input Cord Length (ft.)	8
UPS Input Cord Length (m)	2.4
Recommended Electrical Service	120V
Maximum Input Amps	16
Input Plug Type	NEMA 5-20P
Input Current	16A
Power Factor (Input)	0.99
OUTPUT	
Output Capacity (VA)	2000

SERIES

Unit Dimensions (hwd / in.)	3.410 x 17.330 x 23.820
Unit Weight (lbs.)	61.51
Unit Weight (kg)	27.90
Mounting Details	Includes 4 post rackmount installation accessories
ENVIRONMENTAL	
Operating Temperature Range	32° to 104°F (0° to 40°C)
Storage Temperature Range	With battery: 32° to 104°F (0° to 40°C); without battery: -13° to 131°F (-25° to 55°C)
Relative Humidity	0-96% non-condensing
AC Mode Efficiency Rating (100% Load)	91.4
AC Economy Mode Efficiency Rating (100% Load)	96.8
Online Mode Heat Dissipation (BTU/Hr) @ Full Load	578
Battery Mode Heat Dissipation (BTU/Hr) @ Full Load	974
Operating Elevation	0-10000 ft. (0-3000 m)
Audible Noise	47 dB at 1m
COMMUNICATIONS	
Network Management Cards	(1) WEBCARDLXE
Network Monitoring Port Description	WEBCARDLXE Supports detailed monitoring of UPS and site power conditions; DB9 port supports RS232 and contact closure communications; not compatible with WEBCARDLX
PowerAlert Software	For local monitoring via the UPS's built-in communication ports, download PowerAlert software at https://tripplite.eaton.com/products/power-alert
Communications Cable	USB and RS232 cable included
WatchDog Compatibility	Supports Watchdog application, OS and hard-reboot restart options for remote applications
Network Management Card Description	Network management card optional
Communications Interface	(1) Contact closure; (1) RS-232; (1) Slot for SNMP/Web interface; (1) USB
Emergency Power Off (EPO)/Remote On-Off (ROO)	Yes
LINE / BATTERY TRANSFER	
Transfer Time	0ms
FEATURES & SPECIFICATIONS	
Cold Start (Startup in Battery Mode During a Power Failure)	Cold-start operation supported
High Availability UPS Features	Expandable battery backup; Hot swappable batteries; On-Line/Double-Conversion; Pure sine wave output; Remote management; Surge/noise protection; Zero transfer time
Green Energy-Saving Features	High efficiency economy mode operation; Individually controllable load banks
