Wire Duct

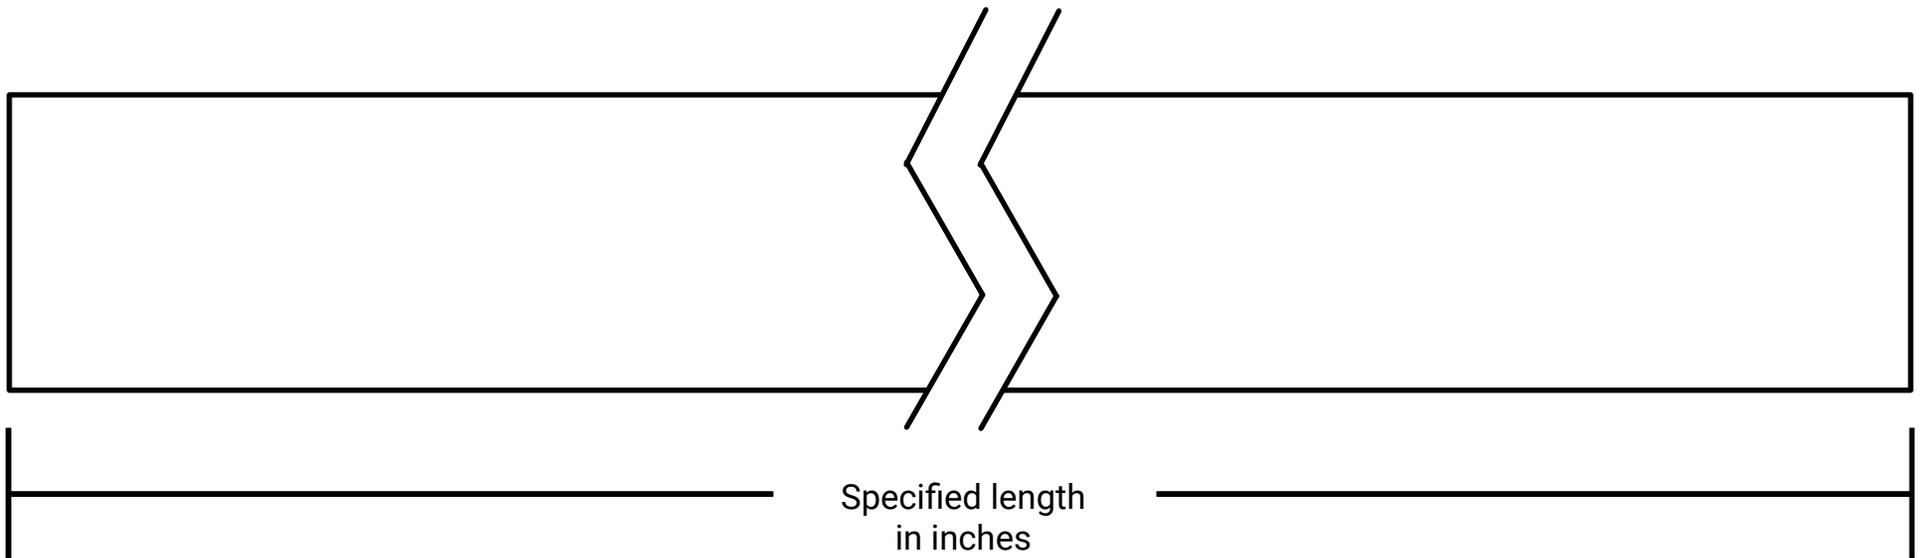

See notes below

Slot/finger spacing varies from one series to the next. See the manufacturer's datasheet for specific wire duct dimensions. All wire duct cuts are centered between fingers and not to the advertised lengths. Depending on finger pitch, cut length can be $\pm .125$ " / $\pm .75$ ". All cuts will be uniform for each length with a $\pm .125$ " tolerance. Mounting slot locations are random on all standard offerings.

For custom lengths or configurations, send inquiries to custom.orders@digikey.com

Wire Duct Cover

Specified length
in inches

See notes below

See the manufacturer's datasheet for specific wire duct cover dimensions. All duct covers are cut to the advertised length with a ± 0.125 " tolerance.
