The durable USB C charging cable has aramid fiber reinforcement that shelters it from the stress of frequent bends. This also lets the cable flex without over-stretching or damaging the core of the cable.

The USB C cable is constructed to prevent the connector from separating from the jacket. The extra-long strain relief molding is tested to withstand over 5,000+ bend cycles at a 180 angle.

The durable cable supports all USB 2.0 specifications providing a dependable connection for all your USB-C devices. It supports up to 3A for charging your USB C compatible devices.
