

6.6ft (2m) USB-C Fast Charging Cable, Rugged, Charge & Sync, 60W (3A) PD, USB 2.0, Black TPE Jacket and Aramid Fiber - USB C Charging Cord

Product ID: RUSB2CC2MB

This USB C cable withstands the daily demands of charging and syncing your mobile devices. Compatible with your Thunderbolt 3 ports, this rugged cable is a must-have for both business and consumer applications.

The durable USB C charging cable has aramid fiber reinforcement that shelters it from the stress of frequent bends. This also lets the cable flex without over-stretching or damaging the core of the cable.

- Aramid fiber adds strength and durability to the cable
- Insulated conductors reduce friction, provide more flexibility
- EMI (electromagnetic interference) protection with aluminum-mylar foil with braided shielding
- TPE (thermoplastic elastomer) cable jacket is more flexible than a standard PVC cable

The USB C to USB C cable is constructed to prevent the connector from separating from the jacket. The extra-long strain relief molding is tested to withstand over 10,000+ bend cycles at a 180 angle.

- USB Type C connector provides 3A of power output for charging your USB C compatible devices
- Metal shield protects circuit board from EMI and reinforces the connection point
- Strain relief tested to tolerate over 10,000+ bend cycles at a 180 angle

The durable cable supports all USB 2.0 specifications providing a dependable connection for all your USB-C devices. It also delivers up to 60W of power to charge your devices without needing an additional power supply.
