# SERVICE OVERVIEW

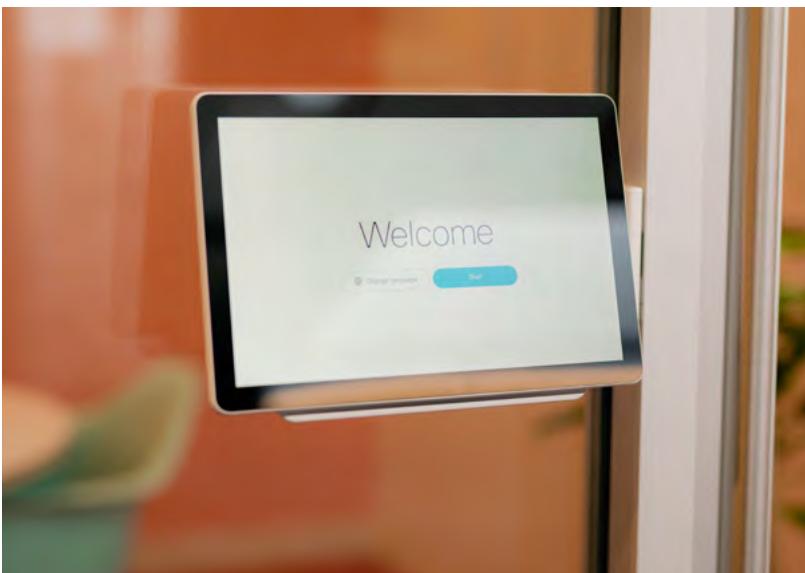

## Deployment & Provisioning

Installation services are available across the US, Canada, and select international markets. Deployment services include site-surveys, network configurations, cat6 cable drop, kiosk assembly, kiosk operating tests, and follow up support. Devices can also be provisioned to the customers specification prior to shipping.

Contact a PowerBx Account Executive for a quote at [info@powerbx.com](mailto:info@powerbx.com)

## Onboarding & Integration

PowerBx is experienced at integrating Office 365 (EWS) and Google Workspace calendar systems with third part software. Allow us to work side by side with your Client Success team to ensure a white glove end-user experience.

## Business Continuity

Upgrade your lobby check-in experience with a kiosk that's uniquely yours. We can provide custom color coating and logo placement on any kiosk you select. Texture wraps, such as wood grain, are also available. Our in house team will work to create a beautiful finished product for your workspace.
