

**RTC-2640**

**RTC-3652**

Designed to ring large HDPE or other similar fiber optic ducts, this rotary duct and tube cutter is perfect for making circular cuts in large fiber ducts without damaging the fiber inside. These tools also features the following:

- High carbon steel circular blades cut through HDPE or other similar materials with ease
- RTC-3652 makes circular cuts in fiber optic ducts and tubes up to 2" (52 mm) in diameter and RTC-2640 makes circular cuts in fiber optic ducts and tubes up to 1.5" (40 mm) in diameter
- Ergonomic handles provide extra leverage when ringing fiber optic ducts
- Carbon Steel construction provides high durability and long life
- Lifetime Warranty

SPECIFICATIONS	RTC-2640	RTC-3652
<b>DUCT DIAMETER</b>	1" - 1.5" (26 - 40 mm)	1.4" - 2" (36 - 52 mm)
<b>MAXIMUM CUTTING DEPTH</b>	0.157" (4 mm)	N/A
<b>DIMENSIONS</b>	10.5 in x 2.6 in x 1.25 in (26.67 cm x 6.6 cm x 3.18 cm)	N/A
<b>WEIGHT</b>	N/A	N/A
