*IFP Conditions: Pulse Width≤10msec duty≤1/10

* All high power emitter LED products mounted on aluminum metal-core printed circuit board, can be lighted directly, but we do not recommend lighting the high power products for more than 5 seconds without a appropriate heat dissipation equipment.

*Re-flow,wave peak and soak-stannum soldering etc.is not suitable for High power integrated light source.

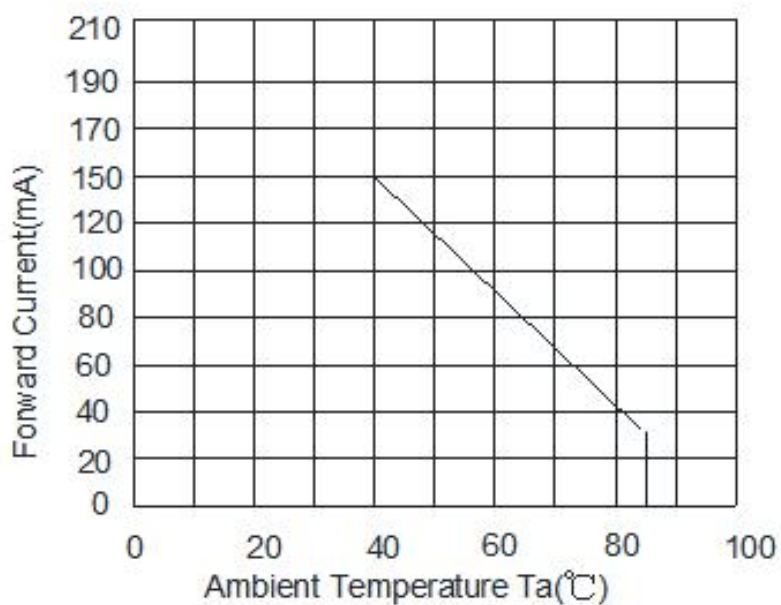

*Suggest to solder it by professional high power LED soldering machine.

*Can use invariable-temperatur e searing-iron with soldering condition :≤260 degree less than 3 seconds.

Package Dimensions (MM)

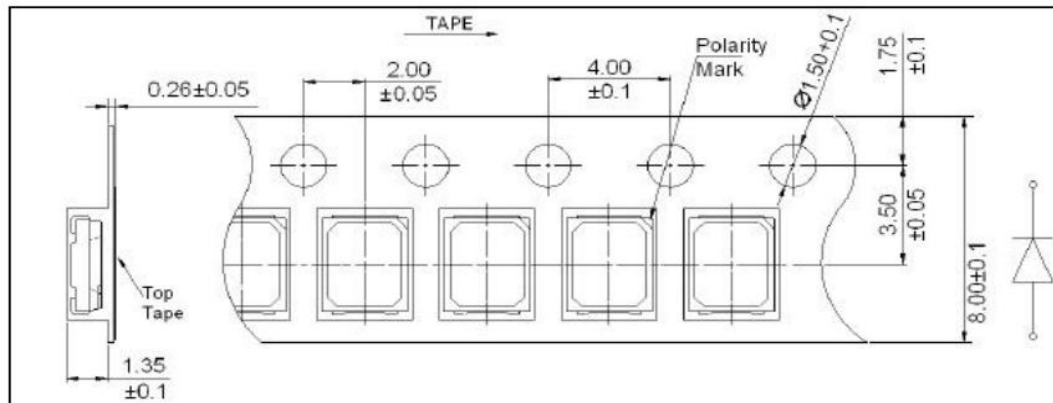

- Notes:
1. All dimension units are millimeters.
 2. All dimension tolerance is $\pm 0.2\text{mm}$ unless otherwise noted.
 3. The brass column of heat sink of the high power LED is Anode. Please pay more attention to the necessary installation, when installing The heat dissipate on equipments and connecting the electric circuit in avoid of short circuit and destroying

Moisture Resistant Packaging:

Note: The tolerances unless mentioned is $\pm 0.1\text{mm}$, Unit: mm

Other points for attention:

1. No pressure should be exerted to the epoxy shell of the SMD under high temperature.
2. Do not scratch or wipe the lens since the lens and gold wire inside are rather fragile and cross out easy to break.
3. LED should be used as soon as possible when being taken out of the original package, and should be stored in anti-moisture and anti-ESD package.
4. Do not stack together assembled PCBs containing LEDs. Impact may scratch the silicone lens or damage the internal circuitry

Storage:

1. It is recommended to store the products in the following conditions: Humidity: 60% R. H. Max. Temperature : 5~30 (41~86)
2. Shelf life in sealed bag: 12 month at 5~30 and 60% R.H. after the package is Opened, the products should be used within a week or they should be keeping to stored at 20 R.H. with zip-lock sealed.

Baking:

It is recommended to baking before soldering when the pack is unsealed after 12hrs. The Conditions are as followings:

1. $70 \pm 3^{\circ}\text{C}$ (12~24hrs) and 5%RH, taped reel type
2. $100 \pm 3^{\circ}\text{C}$ 1hrs , bulk type
